Professional Summary

Bachelor of technology graduate and Full Stack Java Developer with hands-on experience in building scalable applications using **Java, Spring Boot, Hibernate, and SQL**. Proficient in **React.js, JavaScript, REST API integration, and database management**. Experienced in frontend– backend integration, authentication systems, debugging, and deployment. Comfortable working ensuring code quality, and delivering **responsive, user-friendly UI solutions**. Passionate about building efficient, reliable, and maintainable applications.

Education

Bachelor of Technology (B.Tech) in Electronics Engineering
Dr. Babasaheb Ambedkar Technological University | 2021 – 2025 | GPA: 7.1

HSC (Science) – Jai Hind College, Dhule | 2021 | GPA: 78.5%

Core Skills

Backend: Core Java, Spring Boot, Spring MVC, REST API, Spring Data JPA

Frontend: React.js, JavaScript (ES6+), Next.js ,Context API, HTML5, CSS3

Database: MySQL, SQL, Spring Data JPA , PostgreSQL

Tools: Git, GitHub, IntelliJ IDEA, Eclipse, VS Code

Queue System: Redis , Playwright

Experience

Software Developer Intern | Scalar TechHub, Pune| Oct 2025 – Present

- Working as a **React Developer**, contributing to front-end development and UI enhancement for live projects.
- Building **reusable React components** and integrating **Firebase** for authentication and real-time data management.
- Collaborating in an **agile environment** using **Git** and **Jira** for version control and task tracking.
- Enhancing project performance through **optimized rendering** and **responsive design** principles.

Internship

Java Full Stack Developer Intern | The Kiran Tech, Pune| Feb - Oct 2025

- Completed Full Stack Development training covering Java, J2EE, and ReactJS.

- Built end-to-end web applications using Spring Boot and REST APIs.
- Developed responsive frontend applications using React and modern UI practices.
- Worked on real-time project implementations with database integration.

Projects

Event & Adventures – Mobile Event Booking App | Internship | Jan 2026

Tech Stack: React Native, Expo, JavaScript, Swagger API, REST API, JWT Authentication

- Developed a React Native mobile application for event discovery and booking during internship.
- Integrated Swagger-documented REST APIs for event listing, enrollment, authentication, and user management.
- Implemented secure JWT-based authentication and protected user routes.
- Designed and built responsive mobile UI screens with optimized component structure and efficient state management.
- Enabled users to browse events, enroll/book events, and automatically join event-specific group chats upon registration.
- Implemented controlled chat functionality allowing users to communicate only within their enrolled event groups.
- Collaborated in a small team environment, working closely with a senior backend developer to ensure smooth API communication and scalable architecture.
- Focused on clean UI rendering, proper API handling, and performance optimization for a smooth user experience.

Attendify – A Modern Attendance Management System | Oct 2025 | [Link](#)

Tech Stack: React, Firebase (Authentication & Firestore), Tailwind CSS, Vite, Framer Motion, Recharts •

Built a responsive web-based system to automate employee attendance management and tracking.

- Integrated **Firestore Authentication** for secure login/signup with Google and email-based access.
- Implemented **real-time data handling** using Firestore for attendance and employee records.
- Designed **interactive dashboards** and **calendar views** to visualize weekly and monthly attendance.
- Developed **employee management modules** for adding, editing, and viewing detailed profiles with photos.
- Utilized **Recharts** for analytics visualization and **Framer Motion** for smooth UI animations.
- Applied **Tailwind CSS** and **Chakra UI** for a clean, modern, and fully responsive user interface.

Book-A-Bite – Restaurant Reservation System | Apr 2025 – May 2025 | [Link](#)

Tech Stack: Java, React.js, Context API, JavaScript, CSS3, Spring Boot, MySQL

- Developed a full-stack restaurant reservation platform with a React.js frontend and Spring Boot backend.
- Implemented **JWT-based authentication** and **Spring Security** for secure user access.

- Designed a **responsive UI** with React Router, Context API, Axios, and custom CSS.
- Configured **CORS policies** to ensure seamless communication between frontend and backend services.
- Enabled users to book, modify, and view reservations through an intuitive interface.

Certifications

Java Full Stack Development Program – The Kiran Academy, Pune (Mar 2025 – Aug 2025) Core Java, OOP, Spring Boot, RESTful services, React.js integration, Agile practices
